

Saskatchewan Anglers Guide

2023-24

saskatchewan.ca/fishing

Saskatchewan 

Minister's message

*Hon. Dana Skoropad
Minister of Environment*

I am pleased to present the 2023 Anglers Guide and welcome you to another season of sport fishing in Saskatchewan.

Fishing and Saskatchewan go hand-in-hand, and we are blessed to have world-class fishing opportunities right here at home. Each year, anglers near and far get out on the water to put their skills to the test and have some fun. Whether it's a beautiful prairie summer or a chilly winter's day, it's hard to resist the lure of fishing Saskatchewan's waters.

Anglers play a key role in maintaining these opportunities and protecting the health and vibrancy of our waters and aquatic species by fishing responsibly. Familiarizing yourself with this guide and the rules and regulations around your planned fishing activity is a great start.

In response to the ongoing threat of aquatic invasive species, we continue to work hard on all fronts to prevent them from invading our waters. This work includes education and awareness, ensuring appropriate and relevant regulations, response planning, conducting watercraft inspections and monitoring high-risk waters.

Help us keep our waters free of invasive species by always remembering to clean, drain and dry your watercraft and equipment when moving between waterbodies, and by checking your bait before you drop a line.

I hope you all get the opportunity to head out with friends and family this year and enjoy the amazing fishing our province offers.

Have a safe and enjoyable fishing year.

Land acknowledgement

Saskatchewan is situated on the territories of Treaties 2, 4, 5, 6, 7, 8 and 10 – the traditional lands of the Cree, Dene, Dakota, Lakota, Nakota and Salteaux Nations, and the home of the Métis. We acknowledge and respect the rights of the Nations to practice traditional harvest across the province and recognize that our waters are shared by all of Saskatchewan's people.

Introduction

This guide is intended for use as a reference and is not a legal document. The contents of this guide apply from April 1, 2023 to March 31, 2024; however, there may be updates to the online version of the guide following the release of the printed version. It is the responsibility of the angler to be informed of any changes prior to fishing. Up-to-date guides can be found at saskatchewan.ca/fishing.

The general regulations in this guide apply to all provincial Crown waters in Saskatchewan, excluding federal waters (e.g. Prince Albert National Park). If you plan to fish a water that is listed in the special regulations, you must comply with any additional restrictions identified for that water. More information can be found in the regulations sections of this guide.

What's new for 2023-24

General:

- **Annual angling licence expiry dates have changed to March 31 from April 15.**

The 2022-23 proposals for Jan, Little Bear and East Trout Lakes have been amended to include: a revised closure end date for Jan Lake and new reduced limits for Little Bear and East Trout Lakes (see below).

Angling closure:

Jan Lake:

- Brock Bay and water surrounding Harper Island from the point west of Harper Island (54°52'51.00" 103°0'46.33") to the northern most tip of Harper Island (54°53'1.00" 103° 0'12.09") to the point southeast of Harper Island (54°52'4.25" 102°59'29.18") are closed to angling March 1 to June 15.

Reduced limits:

East Trout Lake:

- Lake trout limit two, only one may exceed 65 cm.
- Lake trout limit zero from September 10 - November 10.

Greenwater Lake:

- Walleye limit two, only one may exceed 55 cm.

Little Bear Lake:

- Lake trout limit two, only one may exceed 65 cm.
- Lake trout limit zero from September 10 - November 10.

Marean Lake:

- Walleye limit two, only one may exceed 55 cm.

Athapapuskow Lake and Lake of the Prairies are managed under border waters agreements with the Province of Manitoba. As of April 1, 2023, Manitoba is changing how these lakes are regulated. Saskatchewan has agreed to implement the following changes, effective April 1:

Athapapuskow Lake:

- Walleye/sauger combined limit four, none may exceed 55 cm.
- Pike limit four, none may exceed 75 cm.
- Lake trout limit one, which cannot exceed 65 cm.
- Manitoba or Saskatchewan licence is valid on the Saskatchewan part of the lake.
- Season opens on the Saskatchewan part of the lake on May 15, 2023.
- Barbless hooks are mandatory.

Lake of the Prairies:

- Walleye/sauger combined limit four, none may exceed 45 cm.
- Pike limit four, none may exceed 75 cm.
- Perch limit 25 (sizes are total length without tail pinched).
- Manitoba or Saskatchewan licence is valid on lake.
- Season opens on the Saskatchewan part of the lake on May 13, 2023.
- Barbless hooks are mandatory.

Proposed changes for 2024-25

The following changes are proposed for the 2024-25 angling season:

Reduced limits:

Cold Lake:

- Lake trout limit one, which must be between 65 – 70 cm.

Ministikwan Lake:

- Walleye limit two, only one may exceed 55 cm.
- Pike limit three, only one may exceed 75 cm.

Pierce Lake:

- Lake trout limit one, which must be between 65 - 70 cm.

These proposed changes are for your review and comment. Please email your comments to guide@gov.sk.ca by September 1, 2023. Comments on the proposed changes are for consideration and will only be responded to if further consultation is required.

Aquatic Invasive Species

Aquatic Invasive Species (AIS) have been found in a number of nearby provinces, including Ontario and Manitoba, as well as many U.S. states. These species pose a significant threat to Saskatchewan waters. Transporting watercraft into Saskatchewan could result in the unintentional introduction of AIS, as they are often incredibly small or hard to identify and may go undetected.

Anyone transporting watercraft into the province should call 1-800-567-4224 for watercraft inspection information prior to launching in Saskatchewan, or any other jurisdiction in Western Canada.

HABISask

Hunting, Angling and Biodiversity Information of Saskatchewan (HABISask) is a client-centred, online mapping tool available on your desktop or mobile device. Angling features include water body locations, fish species presence, fish stocking history, special regulations, bathymetric (underwater depth) map links, fisheries management zones, fisheries biologist management areas and conservation officer field offices. For more information, visit saskatchewan.ca/fishing.

Purchasing a licence

Angling licences are available:

- Online: saskatchewan.ca/fishing.
- In-person: Ministry of Environment offices, select provincial parks or private issuers.
- By phone: 1-855-848-4773 (8 a.m. to 9 p.m.).
(Please allow 10 business days for delivery.)

If purchasing online, you will require a Hunting, Angling and Trapping Licence (HAL) System account. If you have an existing account, use your HAL identification number or your previously registered secondary identification number. You do not need to create a new account if you have previously registered for HAL. If you require assistance, call 1-855-848-4773 (8 a.m. to 9 p.m.).

Licensing fees and requirements

Saskatchewan resident (details below)		<i>All licences include GST (goods and services tax)</i>
Age 16 to 64		
- Annual (*auto renewal option available in HAL self-serve)		\$42
- Three-day (consecutive days)		\$21
- One-day		\$15
Canadian Armed Forces veteran (details below).....		Free
Senior (65 and older) - no licence required		
Youth (under 16) - no licence required		
Canadian resident (details below)		
Age 16 and older		
- Annual		\$86
- Three-day (consecutive days)		\$46
- One-day		\$23
Canadian Armed Forces veteran (details below).....		Free
Youth (under 16) - no licence required		
Non-resident (details below)		
Age 16 and older		
- Annual		\$115
- Three-day (consecutive days)		\$57
- One-day		\$28
Youth (under 16) - no licence required		
*Note: Annual angling licences expire March 31, 2024.		

Saskatchewan resident: A person who is a Canadian resident with a principal residence in Saskatchewan and has lived in the province for three months immediately preceding the date of licence purchase or is a regular member of the Canadian Armed Forces who was a Saskatchewan resident when recruited or deployed from the province.

Canadian resident: A person who has a principal residence elsewhere in Canada and is a Canadian citizen or has lived in Canada for 12 months immediately preceding the date of licence purchase.

Non-resident: A person who is not a Saskatchewan or Canadian resident.

Senior: A Saskatchewan resident 65 years of age or older who produces proof of age and Saskatchewan residency does not require an angling licence, but must meet all other fishing regulations. Out-of-province seniors require a licence.

Canadian Armed Forces veteran: A veteran is a Saskatchewan or Canadian resident who is a former member of the Canadian Armed Forces, has successfully undergone basic training and has been honourably discharged.

For more information on eligibility requirements, please visit
saskatchewan.ca/fishing.

**See pages 11 to 28 for alternate season dates for certain waters. For example, Lake of the Prairies opens on May 13, 2023.*

Catch limits

- Limit refers to the maximum number and size of fish you are allowed to retain or have in your possession. Anglers may possess no more than one limit of each fish species at any time. This includes fish that are eaten or given away that day, as well as all fish that are at your camp, being transported by or for you, or fish that are in storage.
- General limits apply to most provincial Crown waters in Saskatchewan. However, some waters have special regulations that further restrict angler harvest or activity. These exceptions to the general regulations must be complied with when fishing any of the listed waters (see page 11-28).
- Fish length: measure the fish's total length with its tail pinched (see page 31).

General limits

Arctic grayling	2	only one may exceed 35 cm
Bigmouth buffalo	0	
Burbot	8	
Channel catfish	1	which cannot exceed 60 cm
*Goldeye	8	
Lake trout	3	only one may exceed 65 cm
Largemouth bass	2	
Northern pike	5	only one may exceed 75 cm
Perch	25	
Rock bass	6	
*Stocked trout	5	all species combined
Smallmouth bass	0	
Sturgeon	0	
*Walleye	4	only one may exceed 55 cm
Whitefish	8	
*Goldeye includes mooneye		
*Stocked trout species include brook, brown, rainbow and tiger trout and splake.		
*Walleye includes sauger and saugeye		

Releasing fish

All fish that cannot be legally retained must be immediately released back into the waters from which they were taken, in a manner that causes the least harm to the fish. For example, a species or size of fish for which the limit is zero or any fish caught after you have already kept your limit of that fish species.

Summary of Saskatchewan fishing REGULATIONS

Sport fishing in Saskatchewan is regulated by *The Fisheries Regulations* that are made pursuant to *The Fisheries (Saskatchewan) Act, 2020*. Below is a summary of the major regulations, which apply to all provincial Crown waters and roadways in Saskatchewan (excluding federal waters (e.g. Prince Albert National Park)) and must be complied with at all times. Complete copies of the Act and Regulations may be obtained from Publications Saskatchewan at publications.saskatchewan.ca or by calling 1-800-226-7302.

General prohibitions

It is unlawful to:

- Angle without possessing a valid Saskatchewan angling licence, unless the angler is under 16 years of age, a Saskatchewan resident senior or an individual with a recognized Treaty or Aboriginal right to fish for food in Saskatchewan.
- Fail to produce a licence upon the request of an officer (digital or paper).
- Fish on the Saskatchewan portion of boundary waters without a valid Saskatchewan angling licence, unless otherwise specified.
- Fail to stop a vehicle or watercraft (boat, canoe, kayak, dinghy or any other water-based vessel) when requested by an officer.
- Fail to stop and submit to an inspection station when transporting watercraft.
- Assist or fish with individuals who are fishing for food pursuant to their Treaty or Aboriginal rights. This does not apply if:
 - ~ The rights-bearing person(s) does not exceed the maximum number or size of fish permitted by angling under these regulations; or
 - ~ The accompanying person has a recognized Treaty or Aboriginal right to fish for food in Saskatchewan; or
- ~ The accompanying person is a member of their immediate family (immediate family members include the individual's father, mother, grandfather, grandmother, brother, sister, child, spouse or common-law spouse).
- Possess fish taken for food by an individual under their Treaty or Aboriginal fishing rights, unless you are a member of their immediate family or have a Treaty or Aboriginal right to fish for food in Saskatchewan.
- Fish in closed waters or during a closed season.
- Take more fish than the limit specifies (limit includes fish stored or eaten for shore lunch).
- Take more than the Saskatchewan limit of fish on boundary waters with Alberta, Manitoba, the Northwest Territories and Prince Albert National Park, unless otherwise specified.
- Transport fish taken by angling that are skinless, cut or packaged so that the species, number and length cannot be determined.
- Sell, waste or barter fish taken by angling.
- Fish with more than one line in open waters.
- Be more than 25 metres (27.3 yards) from your fishing line.
- Be in any place where your fishing line is not visible at all times.

- Use more than four hooks on one line (a lure with a gang of hooks is considered one hook).
 - Possess or use any spring-loaded gaff or spring-loaded hook.
 - Use a dipnet to take fish, except to land fish taken by angling.
 - Collect crayfish for any purpose, including consumption.
 - Use lights, firearms, chemicals, electric shockers or explosives to catch or kill fish. Only a light that is part of a lure attached to a line used in angling may be used to attract fish.
 - Take fish by snaring or snagging.
 - Grapple or use only your hands to take or attempt to take fish.
 - Use fish traps or nets to take fish, unless specifically licensed to do so.
 - Tamper with or take fish from a net, trap or holding device without the owner's permission.
 - Fish within 100 metres of any net, trap or fish-holding device.
 - Fish within 23 metres (25 yards) downstream from any constructed dam or obstacle, except where there is a Ministry of Environment sign allowing fishing.
 - Import into Saskatchewan or transport within Saskatchewan any live fish or live fish eggs.
 - Transport watercraft on a highway if it has a blocked drainage hole in the lower hull or bilge.
- are certified-free of viral hemorrhagic septicemia (VHS).
- Live leeches may not be imported into Saskatchewan. Only leeches originating within Saskatchewan may be used as live bait. Canadian and non-resident anglers must provide proof (upon request) that their live bait was purchased in Saskatchewan.
 - Frogs, salamanders and crayfish may not be used as bait.
 - The non-edible parts of a fish legally taken by angling (such as the eye, belly skin or internal organs) can be used as bait. The fish from which the parts were taken must be dead and included in your limit.
 - A plant protection import permit from the Canadian Food Inspection Agency (CFIA) is required to import night crawlers into Canada. For more information, email cfia.ias-eee.acia@canada.ca.

Ice fishing

- Two lines may be used when ice fishing, but they must be within sight and 25 metres (27.3 yards) of the person who set or is using them.
- Only gaffs with a J-hook end may be used to land fish while ice fishing, and the gaffs cannot be more than 1.5 metres (1.6 yards) long. Use or possession of a spear on ice-covered waters is prohibited.
- Ice fishing shelters south of Highway 16 must be removed from the ice no later than March 15. Ice fishing shelters north of Highway 16 must be removed no later than March 31.
- Storing or leaving ice fishing shelters on public land, or on private land without the landowner's consent, is prohibited.
- Ice fishing shelters left unattended on the ice must have the owner's full name, address and phone number in legible letters at least 2.5 centimetres

Fishing with bait

- Live fish may not be used as bait. Only baitfish that are dead and have been commercially frozen or preserved may be used.
- All frozen fish to be used as bait in Saskatchewan (including smelt) that originate from Ontario, Quebec, Indiana, Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania or Wisconsin require proof that the fish

(one inch) high on the outside of the shack.

Bow fishing

- Bow fishing season is open from April 20, 2023, to March 31, 2024.
- A valid Saskatchewan angling licence is required.
- Bow fishing is permitted for carp and suckers only – the taking of game fish and bigmouth buffalo by bow and arrow is prohibited.
- No fish taken by bow fishing may be released or wasted. The unauthorized disposal of fish taken by bow fishing is prohibited on public or private land.
- Fish arrows must be attached to the bow or archer with a line strong enough to retrieve impaled fish.
- A bow and arrow is defined as a firearm and cannot be used or possessed in:
 - ~ Provincial and regional parks or provincial recreation sites; or
 - ~ A federal migratory bird sanctuary (call Environment and Climate Change Canada at 306-836-2022 for further information).

Underwater spear fishing

- Anyone possessing a valid Saskatchewan angling licence may spear fish in Saskatchewan waters.
- Species limits are the same as those for hook and line angling.
- No fish taken by spear fishing may be released.
- Pneumatic guns may be used for spear fishing in Saskatchewan.
- No fish may be taken by underwater spear fishing unless the diver is submerged or swimming in the water.
- Spears shall be secured to the gun or the diver by a line not exceeding five metres (5.5 yards) and of sufficient strength to withstand the operating tension of the spear gun.
- The use of explosive charges or any gas, other than air, as a spear gun propellant are not permitted.
- All underwater spear fishers must display a scuba diver's flag while fishing.
- No underwater spear fishing is allowed within 100 metres (109 yards) of a buoyed swimming area.

Don't transfer live fish – it's the law

Transferring and introducing live fish into Saskatchewan waters is prohibited and can result in significant impacts to our fisheries. If you suspect anyone of transferring or introducing live fish into provincial waters, please contact the Turn in Poachers and Polluters (TIPP) line at 1-800-667-7561 or #5555 on SaskTel mobile devices or visit saskatchewan.ca/TIPP.

Transport and storage of fish

A person who stores and/or transports fish for another angler must clearly identify on the package in ink, the name, address and fishing licence number of the owner and the number of fish in the package.

Management zones and special regulations

Saskatchewan is divided into three management zones for angling regulation. A number-letter combination after the water's name corresponds to the map location on the zone page. All lakes intersected by zone borders fall into the zone immediately north of that border.

The waterbodies listed in the following tables have special, individual regulations that further restrict angler use. These special regulations are specific for each listed waterbody and must be complied with when fishing those waters. **New regulations for a specific waterbody have the waterbody's name in red along with an asterisk (*).**

Catch-and-release (CR) waters

Zone	Species	Limit	Information	
CR1	Arctic grayling	1		
	Lake trout	2	only one may exceed 65 cm	
	Northern pike	3	only one may exceed 75 cm	
	Walleye/Sauger/Saugeye	2	only one may exceed 55 cm	
	For all other fish species limits, see pages 6 and 11 to 28.			
CR2	Arctic grayling	1	which cannot exceed 35 cm	
	Lake trout	2	none may exceed 65 cm	
	Northern pike	3	none may exceed 75 cm	
	Walleye/Sauger/Saugeye	2	none may exceed 55 cm	
	For all other fish species limits, see pages 6 and 11 to 28.			
CR3	Limit of one fish only per day, which can be either an:			
	Arctic grayling	1	which cannot exceed 35 cm	
	or	Lake trout	1	which cannot exceed 65 cm
	or	Northern pike	1	which cannot exceed 75 cm
	or	Walleye/Sauger/Saugeye	1	which cannot exceed 55 cm
	For all other fish species limits, see pages 6 and 11 to 28.			

Barbless hooks are mandatory

Barbless hooks are required on all catch-and-release (CR) waters in Saskatchewan, as well as Lake of the Prairies, Athapapuskow and Tobin lakes.

Southern zone - special regulations

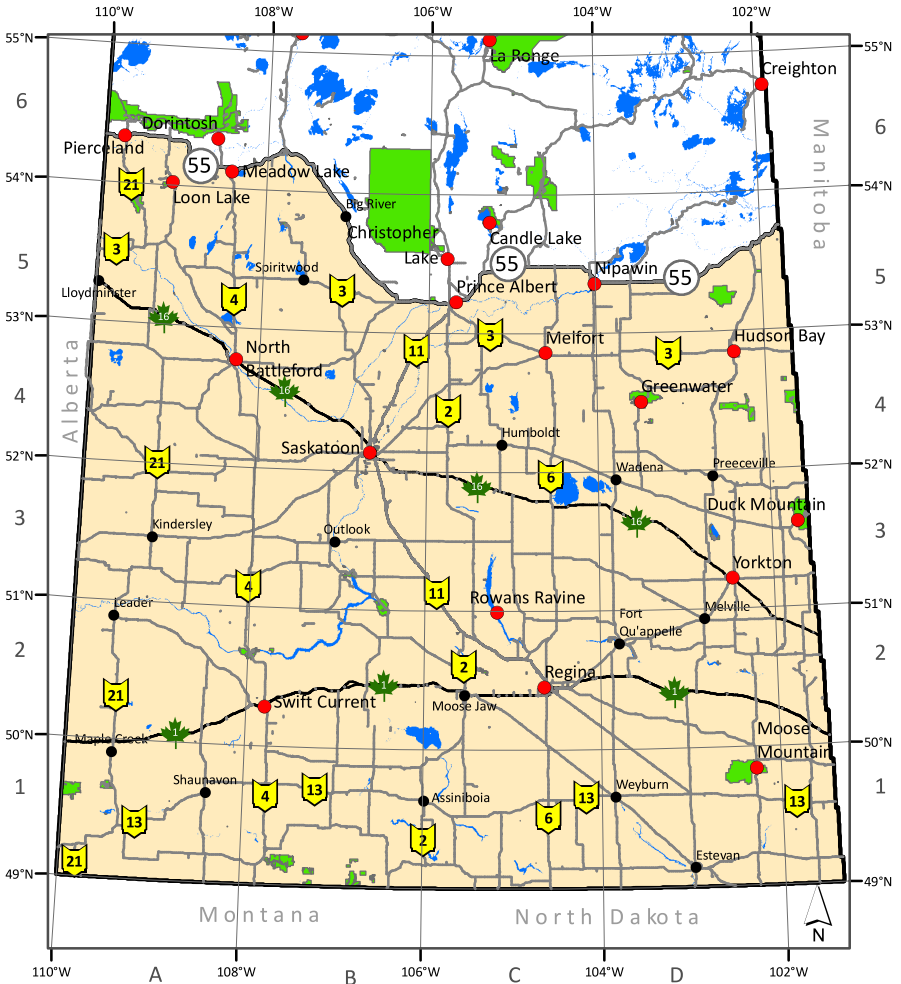

2023-24 season dates: May 5, 2023 to March 31, 2024

Please remember these are guidelines only. Ice conditions often change rapidly and can present serious safety risks. Visit saskatchewan.ca/fishing for more information on ice safety.

Northern zone - special regulations

2023-24 season dates: May 25, 2023 to April 15, 2024

See page 10 for catch-and-release (CR) water species limits.

Contact your local ministry office or the Inquiry Centre at 1-800-567-4224 for clarification of all regulations.

Catch-and-release fishing

Catch-and-release fishing continues to increase in popularity in Saskatchewan. It is important to follow best practices to limit injuries or death. Factors such as handling, hook placement and environmental conditions can influence post-release mortality.

Proper tools for effective catch-and-release

- Needle nose pliers, hemostats or special hook-removing devices.
- Line cutters for deeply hooked fish.
- Landing net or cradle. Landing nets or cradles should be constructed with non-abrasive, knotless materials such as rubber or tangle-free coated nylon. Cradles are recommended for larger fish such as pike.
- Wet cloth glove and camera (if you want to take a picture).

Angling techniques for effective catch-and-release

- Land the fish as quickly as possible to avoid fish exhaustion. The tackle used should match the size of the fish targeted; avoid intentionally using light tackle to prolong the catch.
- Catch-and-release fishing in depths greater than nine metres (30 feet) should be avoided. Most Saskatchewan fish species are unable to rapidly adjust to the changes in water pressure as they are pulled towards the surface, resulting in greater mortality of released fish.
- Venting of distended swim bladders, or fizzing, is discouraged, as it can cause stress and has the potential to harm other internal organs.
- Use unscented artificial lures rather than bait or other organic materials (e.g. dough balls, corn) to minimize deep hooking of fish.
- Limit your angling during periods of extreme heat or cold, as extreme temperatures can contribute to post-release mortality.

Fish and Wildlife Development Fund

Donations can be made to the Fish and Wildlife Development Fund (FWDF) to help maintain Saskatchewan's fish and wildlife populations. Contributions can be directed to the FWDF's fish enhancement and/or wildlife development programs. Monies directed to fish enhancement will be used for priority fisheries programs, such as upgrading the aging infrastructure at the Saskatchewan Fish Hatchery and the development of a walleye culture facility. A tax receipt will be issued for contributions of \$20 or more. Login to your HAL account to make a donation.

Fish handling techniques for effective catch-and-release

- Minimizing air exposure is one of the most important factors in limiting post-release mortality. Ideally, fish should be released without removing them from the water.
- Single, barbless and/or circle hooks can help reduce handling time and air exposure.
- Handle the fish as quickly and as little as possible (ideally, less than 30 seconds). Use a wet cloth glove or wet hand to prevent damage to the fish's protective mucus coating.
- Once a fish is landed, be careful not to let it flop around, as this can lead to injuries.
- Do not hold or support a fish's weight by the gills, gill cover or eyes. If a fish must be held, hold it in a horizontal position, with one hand placed under the forward belly area and the other hand gently around the tail area. This will help minimize damage to the fish's spine and internal organs.
- If a fish is hooked in a vital area such as the gullet, gill or eye, consider keeping the fish if regulations allow, as post-release survival of these fish is greatly reduced.
- If you must release a deeply hooked fish, consider cutting the line close to the hook and follow proper release techniques.
- Hold a fish horizontal in the water until it is fully revived and swims away on its own. Move the fish in an S-shaped pattern to run water through its gills.
- If you must release fish that have been retained in a livewell, proper management of your livewell is crucial. Stress from prolonged confinement and low dissolved oxygen levels from overcrowding and/or warm water can result in higher mortality rates. Limit the number of fish in a livewell to 0.1 kg of fish per litre of water, or roughly one pound of fish per gallon of water. Limiting retention time in a livewell can also help reduce stress and improve post-release mortality.
- If a fish is bleeding or cannot be revived, count that fish towards your limit if regulations allow.

Packaging your fish for transport

(1) Whole (Round)

- head and entrails intact
- can be easily counted and identified

(2) Headless Dressed

- head and entrails removed
- can be easily counted and identified

(3) Fillets

- at least 2.5 cm (1 in) patch of skin and scales intact on body (not belly)
- only two fillets per package
- can be easily counted and identified

Weigh your fish with a ruler

Fish can be harmed when weighed. To protect your fish, take a length measurement. With this chart, you can quickly determine the approximate weight of your fish if you know its length.

TOTAL LENGTH		APPROXIMATE WEIGHT, KG				
cm	in.	Perch	Grayling	Walleye	Lake trout	Pike
20	7.80	0.11	0.08	0.06	0.06	0.07
28	10.9	0.31	0.22	0.18	0.17	0.18
36	14.0	0.67	0.46	0.41	0.37	0.36
44	17.2	1.25	0.85	0.79	0.72	0.64
52	20.3		1.41	1.36	1.24	1.04
60	23.4		2.18	2.16	1.98	1.56
68	26.5			3.24	2.98	2.23
76	30.0			4.65	4.29	3.06
84	32.8			6.44	5.94	4.07
92	35.9				8.00	5.28
100	39.0				10.50	6.70
120	46.8				19.03	11.28
140	54.6					17.51

How to measure a fish

Lay the fish on its side, with the mouth closed and the tail lobes pressed together. Measure the length in a straight line along a flat surface from the tip of the nose to the end of the tail.

To Convert:

Centimetres to Inches	=	multiply by 0.39
Inches to Centimetres	=	multiply by 2.54
Kilograms to Pounds	=	multiply by 2.21
Pounds to Kilograms	=	multiply by 0.45

Fishing access

Most Saskatchewan angling waters are open to the public; however, access may be restricted in some cases, including:

- A fishing licence does not entitle you to fish on private property without the owner's permission. Doing so would constitute trespassing.
- The owner's permission is required to fish any privately stocked waters or where fish are being raised under a fish farming licence.
- Permission from the First Nation Chief or Band Council is required to fish on First Nations reserve lands.

Fish of Saskatchewan

Arctic grayling - Purple iridescence on sides, large dorsal fin.
Average size: 0.5 kg (1.1 lb).

Bigmouth buffalo - Large mouth at tip of snout with no barbels present. Large scales on body with soft-rayed fins.
Average size: 3 to 6 kg (6.6 to 13.23 lbs).

Brook trout - Sides have white and red spots surrounded by blue haloes.
Average size: 0.5 to 1 kg (1.1 to 2.2 lbs).

Brown trout - Tail square, not forked, light brown with black and rusty spots.
Average size: 1 to 2.5 kg (2.2 to 5.5 lbs).

Bullhead (brown & black) - Tail square, not forked, four pairs of barbels present.
Average size: Less than 1 kg (2.2 lbs).

Burbot - Head flattened, single barbel below mouth.
Average size: 1 to 1.5 kg (2.2 to 3.3 lbs).

Carp - Large heavy scales on body, two pairs of barbels at edge of mouth.
Average size: 1 to 5 kg (2.2 to 11 lbs).

Channel catfish - Tail deeply forked, four pairs of barbels present.
Average size: 1 to 2 kg (2.2 to 4.4 lbs).

Goldeye - Silver to dark blue in colour with large, bright yellow eyes. Leading edge of dorsal fin above anal fin.
Average size: Less than 0.5 kg (1.1 lbs).

Lake trout - Deeply forked tail fin, colour is dark grey-green with light spots.
Average size: 1 to 2.5 kg (2.2 to 5.5 lbs).

Lake whitefish - Small head, nose overhangs lower jaw, silvery in colour.
Average size: 0.5 to 1.5 kg (1.1 to 3.3 lbs).

Largemouth bass - Large head and mouth, spiny dorsal fin.
Average size: 0.5 to 1.5 kg (1.1 to 3.3 lbs).

Mooneye - Similar in appearance to goldeye, but with leading edge of dorsal fin ahead of anal fin.

Average size: less than 0.5 kg (1.1 lbs).

Northern pike - Body long and torpedo shaped, large mouth with many sharp teeth.

Average size: 1 to 2.5 kg (2.2 to 5.5 lbs).

Rainbow trout - Mature fish have a pink/red band on each side.

Average size: 0.5 to 2 kg (1.1 to 4.4 lbs).

Rock bass - Body is deep and narrow, eyes are red/orange in colour.

Average size: less than 0.5 kg (1.1 lbs).

Sauger - No white lobe on lower tail fin, dorsal fin with black spots.

Average size: less than 0.5 kg (1.1 lbs).

Splake (Lake trout hybrid) - Body greenish in colour, with yellowish spots and heavy body.

Average size: 1 to 2 kg (2.2 to 4.4 lbs).

Smallmouth bass - Colour may vary from green to olive with dark vertical bars along the side. Spiny dorsal fin.

Average size: 1.35 kg (2.98 lbs).

Lake sturgeon - Shark-like tail fin. Pointed snout with four barbels.

Average size: 3 to 10 kg (6.6 to 22 lbs).

Tiger trout (Brook trout/Brown trout hybrid) - Yellow/brown in colour, worm-shaped mark on sides.

Average size: 0.5 to 1 kg (1.1 to 2.2 lbs).

Walleye - White mark on lower lobe of tail fin, spiny dorsal fin.

Average size: 0.5 to 1.5 kg (1.1 to 3.3 lbs).

Yellow perch - Golden colour with black bars, spiny dorsal fin.

Average size: 0.2 to 0.5 kg (0.44 to 1.1 lbs).

Help keep aquatic invasive species out of our waters.

Clean, drain and dry all aquatic equipment.

Before returning home from out of province, visiting Saskatchewan or moving between waters within the province, make sure to:

CLEAN

all visible plants, animals and mud

DRAIN

all onboard water and leave plugs out during transport – it's the law

DRY

your watercraft and all related gear for at least five days in the hot sun if rinsing is not available. Dispose of unwanted leeches and worms in the trash and dump bait bucket water on land.

To report suspect invasive species, call the TIPP Line toll-free
1-800-667-7561 or SaskTel cell #5555.
